[WEBSITEADDRESS.com](#) Launches Comprehensive Alliance Leveling Guide for World of Warcraft

WEBSITEADDRESS.com launches a complete Alliance leveling solution to provide detailed paths from Level 1-80 along with multiple supporting resources.

WEBSITEADDRESS.com has just launched its newest product – Nubun’s Alliance Leveling Guide – a complete suite of informational products designed to provide complete support for players leveling up from level 1 to 80 in World of Warcraft. Nubun’s Alliance Leveling Guide creator, NAME, has been playing World of Warcraft since the game’s beta stages over four years ago and has brought his years of knowledge to bear in 7 guides included in the package.

Nubun’s Alliance Leveling Guide promises to provide new players a complete leveling experience starting with the basics of creating the first character. Veteran players as well will benefit from detailed strategies targeting all 10 classes in the game and allowing anyone to reach level 80 regardless of their specification. Every detail in the nearly 175 hour play through of the game has been compiled and referenced by NAME to provide a complete Alliance Leveling solution. “World of Warcraft is one of the biggest and most immersive MMOs on the planet and it needs a good guide to help new and veteran players alike through its maze-like zones. No one wants to fall behind their fellow players and no one wants to get lost along the way – with Nubun’s Alliance Leveling Guide, I’ve striven to make sure that never happens,” says NAME.

Nubun’s Alliance Leveling guide is a compilation made up of seven different guides and numerous additional resources. In addition a 1-60 leveling guide, Outland Leveling Guide and Northrend Leveling guide, Nubun’s Alliance Leveling Guide includes an in-game leveling mod to help reach Level 80 along with screenshots and images from throughout the game. A detailed Pro Tips guide contains details about how to choose a character class, how to setup an account and character with the right items, strategy and User Interface add-ons, as well as a detailed run through of the dos and do-nots of getting a new character off the ground. Players of every class will be given a talent guide to help them choose the exact talents they need at each level as they level up, speeding up the process immensely. Death Knights will benefit from a detailed Scarlet Enclave leveling guide as well as a full class guide, and any class can use the Netherwing Reputation guide to get their Nether Drake flying mount at Level 70.

Years of research have been poured into NAME’s leveling guide including both expansion packs, detailed information throughout the game for beginners and veterans alike and a guarantee of future updates. The assigned retail price for Nubun’s Alliance Leveling Guide is PRICE with a special limited time offer of LOWERPRICE until DATE. All purchasers will receive the bonus content listed above.
